Call for Papers

International Review of Law

(ISSN: 2223-859X)

*International Review of Law (IRL)* ([http://www.qscience.com/loi/irl/](http://www.qscience.com/loi/irl/)) is seeking papers for a special issue on **Investments, transactions and disputes in the energy sector**.

IRL encourages the submission of relevant papers, studies, and comments on various aspects of this subject. In particular, it seeks to focus on current and emerging legal frameworks governing investments, transactions and disputes in the energy sector, including international, regional and national legal frameworks. Potential topics could cover issues such as: regulation and governance; the role of international law and bodies, including multilateral, regional and/or bilateral agreements; the adequacy of legal regimes; the role of industry-based standards and guidelines; and issues of legal liability, dispute resolution and governing law. We welcome comparative legal approaches and multidisciplinary approaches to the topic. This special issue also seeks submissions of papers and studies on any other general or specific topics of interest that are relevant to investments, transactions and dispute in the energy sector.

Those interested in contributing are requested to respond to this call for papers by submitting their submissions by **1st May 2017** at the following link: [http://www.editorialmanager.com/irl/](http://www.editorialmanager.com/irl/).

*International Review of Law* is a bilingual, open-access, peer-reviewed international law journal published by Hamad bin Khalifa University Press.

All submissions will be subject to double-blind peer-review. Submissions are accepted in both English and Arabic. Articles of between 6,000 and 10,000 words are preferred but shorter or longer articles may be considered. Policy Notes are also welcome with insights from practitioners, industry or civil society. Authors should follow the Bluebook citation style.

For an informal discussion, please email the guest editors, Dr. Eduardo Pereira ([egp.portugal@gmail.com](mailto:egp.portugal@gmail.com)) and Professor Talal Al-Emadi ([t.alemadi@qu.edu.qa](mailto:t.alemadi@qu.edu.qa)).
